FLUOROCAST

100% FLUOROCARBON

Fluorocast é conhecido por ser um dos melhores Fluorocarbon do mundo, a sua resistência linear e ao nó é surpreendente. Um fio que afunda 4 vezes mais rápido que as linhas de nylon, pouca elasticidade e completamente invisível na água. Fabricado com uma rigidez ideal para "leader" e garante o diâmetro correto e redondo.

Fluorocast is known to be one of the best Fluorocarbon in the world, its linear and knot strength is surprising. Fast sinking, low elasticity and is completely invisible in water. Made with ideal stiffness for leader line and guarantees the correct and round diameter.

É sem dúvida o fio revestido a Fluorocarbon mais resistente do mundo, teste e verifique a sua sensibilidade, resistência ao nó e abrasão e ainda a sua baixa memória. A seu incrível revestimento garante uma durabilidade extra, tudo isto torna este "Fluorocarbon Coated" o mais completo do mercado.

Surely is the most resistant Fluorocarbon coated in the world, test and verify its sensitivity, knot and abrasion strength, low memory. The incredible coating guarantees an extra durability, Spirit is the Fluorocarbon coated most complete of the market.

Winner é a combinação da mais recente tecnologia de extrusão com os melhores copolímeros que permitiu desenvolver o fio de maior resistência linear e ao nó disponível em todo o mercado. Uma linha altamente sensível e macia, sem memória, resistente à abrasão e totalmente transparente.

Winner using the ultimate extrusion technologies and the World best copolymer it was possible to develop this high strength monofilament (both in linear and knot strength). This line has a great sensitivity and softness, no memory, abrasion resistant and exception transparency.

Provavelmente o mono mais resistente do mercado

M31671..

150mt

Uma linha excepcionalmente macia, suave e transparente com uma grande elasticidade e resistência ao nó. Faz um lançamento suave e sem torção da linha.
É constituída por uma fórmula que proporciona uma grande resistência à abrasão.

Extremely soft, elastic and smooth line with an exceptional knot and abrasion resistance. Smooth cast with low line torsion.

Conic Power

3.250kg	0.16 - 0.48	22.900kg
4.300kg	0.18 - 0.48	22.900kg

Uma linha extremamente macia e muito resistente. Conic Power foi produzida para os amantes do surfcasting. Permite ao pescador fazer lançamentos mais longos e sem qualquer tipo de nós ou atritos. Em bobines de 220m sendo 200m de diâmetro variável e os 20m finais de 0,48mm que permitem a utilização de pesos de maiores dimensões sem correr o risco de partir a linha.

Very soft resistant fishing line ideal to the Surfcasting lovers. Allows to the fisherman make longer casts without any knots in the line. 220m spools with 200m of variable diameter and 20m of 0,48mm to cast bigger weights with no breaking line problems.

CAH-LX abre uma nova era de porta carretos para o mercado. Fabricados em alumínio ultra leve de uma grande resistência, este modelo é ainda terminado com almofada para os carretos. No seu interior traz um "woven insert" para criar um design atractivo e para se ajustar a vários diâmetros. Porta carretos em alumínio ultra leve.
